

Friendship Matters!

In this fun series 'Friendship Matters' we want our pre schoolers to know from a young age, that the kind of friends they have and the friends they are, really matters! We can all be people who love, include and are kind to others. Our goal is that each of our children learn this series that they can be a great friend to others, mirroring the same love that God has for them – to others. During this series, we are looking for moments to encourage friendship through conversation, play and activities, helping to model our teaching through action.
